Colwyn Chambers Manchester

The Division continues to remember the foundations of its business: traditional offices and industry. Opportunities to develop, redevelop and refurbish are continually assessed, leading to extensions of existing business parks or the creation of new ones as well as stand-alone offices or industrial and distribution warehouses.

Pride is taken in leasing the appropriate accommodation to a spectrum of tenants from start-up businesses to headquarters for international PLCs.

Once a tenant takes occupation, all aspects of aftercare management of the tenant and the property are provided by Emerson Management Services.
